

Patient Guidelines on the Coronavirus

We continue to take advanced precautions against COVID-19 to ensure the safety of our patients and staff. We are following the CDC guidelines, providing PPE for staff, and performing risk-based screening for patients at check-in, staff and physicians at the beginning of our day, limiting visitors and ensuring our waiting areas are set up to promote social distancing. As an added preventative measure, we are asking all patients coming in for appointments to wear a face covering. We will begin performing elective surgeries on May 8, if you had a surgery that was cancelled due to COVID-19 we will be contacting you shortly to reschedule that appointment.

We kindly ask that patients please reschedule your appointment if you are experiencing cold or flu-like symptoms such as cough, fever, and shortness of breath, by calling 352-237-8400. Central Florida Eye Institute is following CDC guidelines in regards to the Coronavirus (COVID-19) and is taking precautions to prevent its spread. Our goal remains, as always, to provide you the best possible treatment for your healthcare needs. However, the safety of our employees and patients is our utmost concern.

Here are some helpful tips to protect yourself and others:

- Clean your hands often
- Avoid close contact
- Stay home if you're sick, except to get medical care.
- Cover coughs and sneezes
- Wear a facemask if you are sick
- Clean and disinfect.
